SAVE

CANCEL

On clicking the 'Select Routing', a new div will open with active SMSC's list, which are created under SMSC Management

Any one of the active SMSC's can be selected at a time.

SAVE

CANCEL

On Saving, the details will be shown in the below table-

The screenshot shows a user interface for managing services. The top navigation bar includes icons for Home, Accounts, Services (highlighted in orange), Credits, and Settings. The top right corner shows the user is 'Super Administrator' with the name 'Sana Khan' and email '26@test.com'. Below the navigation, a dropdown menu is open, showing 'SMPP' as the selected option.

The main content area displays a table of SMPP services:

SERVICE NAME	ACTION	CONFIGURE
SMPP Trans	<input checked="" type="button"/>	
SMPP OTP	<input checked="" type="button"/>	
SMPP Promo	<input checked="" type="button"/>	

Below this, a detailed view for 'SMPP Trans' is shown:

Username	Type	TPS	IP/Port	Status	View
TestTrans	TRx	100	1.11.1.1 ; 8080		

An annotation with a red circle and arrow points to the 'View' button, with the text: "On clicking 'View', the complete form which was filled at the time of creation will open, along with the prefilled details."

**The Super Admin can create multiple SMPP accounts by clicking on '(+)'**
